Introduction Section

Letter from the CEO & President of Three T Institute

Dear Students,

Thank you for selecting Three T Institute as the school of choice. At Three T Institute our receive an education which we know will provide the knowledge and skills needed to excel as professionals in the workplace.

Three T Institute hires dynamic instructors and coaches to support our mission in providing training that focuses on three tiers of learning. The Three T or Three-Tiered, system is an entire education apparatus that ensures each student gets conventional and customized training for the highest chance at success with each of the Tiers reinforcing the other.

Tier One

Classroom

Classroom modules that allow each student to move through the course at their own pace. Although a pace is set out for them, they are by no means beholden to it and have access to the material as needed.

Tier Two

Coaching

These calls give students in small groups time to speak with a Subject Matter Expert or “Coach” in their certification of choice. These Coaches have years of experience in the certification program they teach and eagerly answer questions and are available for one-on-one calls and emails.

Tier 3

Community

Each student has a community of like-minded students at their fingertips who they can interact with. This community is there for students to talk about ideas, study hints, schedule in-person study sessions if they so choose. But it also reminds students they are not alone and instead have an entire community of students and coaches who right alongside them.

Thank you for being part of our school. At your service.
